The main character's name is Yuna and he is a boy and she is a girl. They have known each other for only two years, and they barely know how to communicate with each other, but she can now ride a bike like a pro and always help him out. When Yuna rides on the bike, it will get really happy and start to sing. Then Yuna can use the bike to collect pairs of objects and drive away the huge clouds. You control the movements of Yuna and the bike using the left and right direction keys. When you collect a pair of items, you will be able to start the mission. There are lots of girls waiting to meet you! When you want to help the cute girls, just press the [ ] button and a platform will appear. Tap on the girls to pick them up. There is a bag available in the bottom of the screen, and Yuna is driven to move up to the bag when he falls off the ground. You can combine and collect items to form a pair. If the item you are trying to combine with the other item is unavailable, you will have to wait a little bit for the item to appear. You can speed up the combo by tapping the [ ] button. When you have the required amount of objects, press the [ ] button again and the mission will be over. The mission will not continue until the [ ] button is pressed, regardless of whether or not you have enough items. The key to victory is to control the gap between the two items as much as possible. When you try to go past the gap, there is a rare chance that you will fall and lose the match! Objects that appear on the ground are called Rare Objects. Rare Objects will appear only when you are riding the bike. You can collect 3 Rare Objects in the game. You will lose the time limit and the mission will end if c9d1549cdd
