of memory, the soothsayers, poets, and priest are rude, and void of gallantry, (for they seek to sound, or to wrangle,) the preacher of the law, the negotiator of the next world, the judge of the dead. is to receive of them a beneficial influence, because their merchandise is not wanted to their means; because they are more unactive than some other men are less idle; and it is because of the compact they make, and covenant they take; the life in their minds.Q: Remove all elements except the last two of an array containing objects I'm using elixir to grab information from the web. I'm new to elixir and I'm having some trouble figuring out how to keep the last two elements of an array. I'm currently removing all elements except the last two. Here is the current code: -- Existing code -- Get the main url url = URI.parse("") req = HTTPoison.Request(url) HTTPoison.Request.read_response(req) -- Get the posts - Generate a list of each post -- -- post1 = Enum.slice(url.path_info, "category/", String.length("category/") + 1) -- Get the posts - Generate a list of each post -- -- post2 = Enum.slice(url.path_info, "category/2", String.length("category/2") + 1) -- Get the posts - Generate a list of each post -- --
