Enjoy a new experience of 2D games in VR - you will be able to see the game screen in a real way and your eyes will follow the action even closer. Your task is to keep an eye on the huge egg: you need to make fire, throw wood into the fire and drive away the tirex and pterodactyl that extinguish it. Don't forget to pay attention to fire indicators in the game - otherwise a lot of things will turn out differently for you. In order to have a positive result, you need to make your fire evenly - you need to stay calm when you throw wood and extinguishing. You don't have a time limit in Dragon VR, so take a lot of time for your work. In fact, it would be easier to just shoot when the tirex approaches. But if you throw the fire too high, the tirex will extinguish it a lot of times. This game is free to download and play, and in order to unlock everything you need to provide your email. Enjoy! Get ready to enjoy this incredible new experience where you will be taking part in VR poker! You will be sitting in front of a poker table where the cards are already dealt to you.
