BullGuard Antivirus 2020 Crack + License Key (Latest 2020) BullGuard.Q: How to disable input text box with jquery I'm trying to disable input text box. I'm trying with this code : `$('#txtSearch').attr('disabled', 'disabled');` I'm trying with that code, I need to change the text of input tag in my site. A: You can't (nor should you), but you can style input element to display as disabled using css. But of course this won't be valid html code. `#txtSearch { display: none; }` UPDATE : How to enable text box when a user will click on the button. You should use `$("#btnShowSearch").click(function() { $("#txtSearch").attr("disabled", false); $("#txtSearch").removeClass("disabled"); });` There can be many other ways to do this.
